1. Order No. 141 of 6 December 1946 by SMA Headquarters in Berlin-Karlshorst instructed Samarayev, the Chief of the Soviet Division for Economic Disarmament, to hand over to the Province of Saxony the I. G. Farben aluminum and magnesium plant in Aken.
2. The President of the Provincial Administration was instructed to make arrangements for rehabilitation of the plant to insure that production of "künstliches Magnesit" (sic) equalled one thousand tons during the second quarter of 1947.

25X1A [REDACTED] comment: This apparently refers to the production of magnesium at the Aken plant, where magnesium was produced from magnesite and dolomite by the electrolytic process.)
